WHEREAS, the State Board of Education believes that all students deserve an excellent and equitable education and that there is an urgent need to strengthen a system of continuous improvement in student achievement for all schools and districts; and

WHEREAS, the Legislature charged the State Board of Education with responsibility and oversight for creating a state accountability framework to provide a unified system of support for challenged schools, with increasing levels of support based upon magnitude of need, and using data for decisions; and

WHEREAS, the State Board of Education has developed an Achievement Index utilizing fair, consistent, and transparent criteria for the purposes of recognizing schools for exemplary performance, improvement, and closing gaps; and

WHEREAS, the State Board of Education believes the state accountability framework needs to be a part of the revisions made to the basic education funding system and that the Legislature will need to provide the State Board of Education, the Office of Superintendent of Public Instruction, and local school boards with the appropriate legal authority and resources to fully implement the new system.

THEREFORE, BE IT RESOLVED that the State Board of Education supports the Superintendent of Public Instruction's application to the United States Department of Education for flexibility from the current Elementary and Secondary Education Act accountability system; and

THEREFORE, BE IT FURTHER RESOLVED that the State Board of Education will collaborate with the Office of Superintendent of Public Instruction to build a unified system of federal and state accountability using multiple measures, English language learner data, disaggregated subgroup data, and student growth measures.
